HELP WYCKOFF REACH “NIFTY-FIFTY” STATUS

The Township Committee reminds everyone to review their recycling habits. Are you including everything? Wyckoff's single stream recycling program now not only includes newspapers, magazines, corrugated and single layer cardboard, metal and aluminum cans, plastic and glass bottles and all dry paper, including junk mail. Our current recycling rate is 29%; our goal is to improve our recycling rate to 50%.

Do not put old appliances, such as washers, refrigerators, etc. out with your trash. Call 201-891-7000 ext. 101 to request a Wednesday curbside recycling pickup. Since the Township pays for garbage by weight, it is important that these large, heavy household appliances are removed from the solid waste stream and recycled.

Recycle your obsolete electronics, computers and televisions at the Recycling/Conservation Center on West Main Street; don't include them in your household trash.

Reminder, there is never a limit to the amount of recyclables your family can place at the curb for the every-other-week collection of recyclables. Visit Wyckoff on the Web at wyckoff-nj.com for additional information regarding garbage, trash and recycling disposal.
