MOTORIST ALERT REVISED Russell Avenue Road Closure and Detour Starting Tuesday, September 7 For Sewer Main Construction

Starting on Tuesday, September 7, Russell Avenue between Wyckoff Avenue and Route 208 will be closed from 9 am until 12 noon to allow for the construction of a privately funded extension of the sanitary sewer main by Matina & Sons Construction Company to serve five residential homes. Starting on Wednesday, September 8, two lanes of traffic will be maintained while the construction work proceeds in the unpaved right-of-way. The road work is anticipated to last seven business days; weather permitting. Wyckoff residents who live in the closed section of Russell Avenue or adjacent streets in this area can access their homes via the Route 208 or Wyckoff Avenue.

Vehicles traveling in either direction of Russell Avenue will be directed to follow a posted detour that will take them around the closed roadway. Motorists traveling on Russell Avenue should anticipate delays, plan an alternate route or plan for more travel time and follow the detour.

No work is planned for evenings or weekends unless required by an emergency situation. Russell Avenue will be open to traffic each day after 6 pm. Emergency vehicles will have access to streets within the road closure at all times. Motorists should anticipate delays or plan for extra travel time or plan an alternate route.

Please click on Township News page on Wyckoff on the Web (www.wyckoff-nj.com) for any updates regarding road closures e.g. inclement weather delays, other detour notifications and when the construction is complete. If you register your e-mail address at Site Registration on the Home Page, updates will be e-mailed to you when they are posted.

Thank you for your assistance and please drive safely and with caution.
