APPLICATION(S) – CARRIED

FLORES, RADLEY BLK 376 LOT 3 (RA-25); 482 William Way. *(The applicant proposes to install solar panels on the front portion of the roof which is non-conforming according to Ordinance #1675).*

The Board will review the material that was submitted and listen to testimony at the public hearing. Board Member Shanley said that solar use could be considered an inherently beneficial use according to Chapter 40:55D-4 and D-7 as positive criteria.

DISCOLA, EMILIO BLK 436 LOT 23.01 (RA-25); 688 Birchwood Drive. *(The applicant proposes to demolish the existing home and construct a new home that is conforming to all setback requirements).*

Chair Ruebenacker said a revised landscape plan has been provided to the Board and 3 windows have been added to the rear of the garage along with Belgium block curbing. Board Member Borst said screening has not been provided in the rear yard. Board Member Shanley said this is a very large house on a non-conforming lot; concerning with the side of the house facing the front yard. Township Engineer DiGennaro said the covered porch has been removed which reduced the impervious coverage.

APPLICATION(S) – NEW

BERTELLI, JOSH BLK 434 LOT 19 (RA-25); 747 Mountain Avenue. *(The applicant proposes to expand an existing bedroom and bathroom, and adding a new master bedroom suite which*

includes a bedroom, bathroom, and closets all on the second floor of the existing non-conforming residence).

Township Engineer DiGennaro said the existing single family dwelling is situated in the RA-25 zone on a corner lot and is non-conforming due to lot area, front yard setback, principal and accessory structure side yard setbacks. The applicant is proposing an addition to expand an existing bedroom and bathroom, add a new master bedroom suite with closets on the second floor and add a front porch. The property is served by sewer and the application does not qualify for storm water management requirements. The Board liked how the applicant stepped in the second floor and that this is a very unique application due to the shape of the lot.

GLEN BROOK INC. BLK 483 LOT 12 (RA-25); 130 Starr Place. *(The applicant proposes to renovate the existing structure and add to the first and second floors utilizing the existing foundation).*

Board Attorney Becker advised the applicant and the Board that this applicant will need to be represented by council in order to be heard at the public hearing meeting since he is a corporation. The Board decided to withhold discussion until the public hearing meeting.

TODE, MICHAEL & JILL BLK 491 LOT 31 (RA-25); 549 Lafayette Avenue. *(The applicant proposes to add a family room and adequate storage and closet space, which extends into the side yard setback and triggers the principal building maximum lot coverage.)*

Township Engineer DiGennaro said the existing single family dwelling is situated in the RA-25 zone and is non-conforming due to lot area deficiency, frontage, front yard setback, and both side yard setbacks. The applicant is proposing a single story addition to the rear of the structure requiring variances for side yard setback and principal building lot coverage. A storm water management plan is not applicable and the property is served by sanitary sewers.

Vice Chair Fry said the applicant has made an effort to step the addition away from the neighbor and it is tastefully done. Board Member Yudin noted that an accessory building is being removed. The Board will hear testimony at the public hearing meeting.

SCHWARTZ, PETER & DINA BLK 217 LOT 7 (RA-25); 88 Logan Lane. *(The applicant proposes to construct an in ground pool, patio pool, spa and pool equipment; the lot coverage variance was previously granted, but applicant proposes to change the manner of achieving compliance by not removing portion of existing driveway and instead, by removing or decreasing impervious coverage in the rear yard.)*

Chair Ruebenacker said this application is back before the Board for an amendment to the existing approval. Township Engineer DiGennaro said that during construction of the pool the applicant was able to reduce the size of the area in the rear yard and would like to swap this impervious coverage in order to keep the width of the driveway in the front yard. He added that there will be slight changes in the final grading which will not affect the neighbors. He added that due to this amendment the impervious coverage has been reduced from 31.39% to 31.36%. The Board will hear testimony at the public hearing meeting.

MOORE, CHRISTOPHER BLK 224 LOT 15.01 (RA-25); 441 Clinton Avenue. *(The applicant seeks to amend a previous approval for purposes of relocating the driveway entrance to the property).*

Township Engineer DiGennaro said this application will not be heard tonight since the applicant has failed to provide proper notification.

DEGELMAN, CRAIG BLK 259 LOT 7 (R-15); 11 Ward Avenue. *(The applicant proposes to construct a garage which will encroach into the side and rear yard setbacks, exceed combined lot coverage, exceed impervious coverage and exceed height requirements).*

Township Engineer DiGennaro said the existing single family dwelling is situated in the R-15 zone and is non-conforming due to lot area deficiency, frontage, front and side yard setbacks. The applicant is proposing to construct a detached garage where currently there is no garage serving the property. The property is served by municipal sanitary sewer. The applicant must provide a storm water management plan for approval. Board Members noted that the garage is a very large structure and were concerned with water runoff, the rear overhead door due to the grading of the property and that it was proposed at 5' off the property line. The Board will hear testimony at the public hearing meeting.
