

HOUSE NUMBERS SHOULD BE DISPLAYED CLEARLY

The Wyckoff Police Department requests that all residents assist the emergency services by conspicuously displaying house numbers. Seconds count in an emergency and easily read house numbers assist the emergency services when responding to a call for help.

In case of an emergency, it is important that house numbers are large and easily read so that police, fire or ambulance personnel can locate your house as quickly as possible.

Township Ordinance 96-3 requires that every building shall have its number conspicuously displayed on the street side of the building at or near the main entrance of the building and house numbers shall not be less than three inches in height.
